

THE CHOPPING BLOCK: Notes from the Freshman Disciplinary Boards concerning:

Heads that have rolled - Dravo: for a freshman caught with alcohol in his possession the recommended punishment was two university demerits and removal from his office as section social chairman; for four freshmen who illegally entertained girls in the main lobby, dormitory probation for the semester, and, for one of these men, removal from his office (section president). Drinker: for three freshmen observed in throwing firecrackers out a window, one university demerit, and an interview with Mr. Campbell, each, was recommended.

Heads that will roll - on Wednesday, Nov. 13, the Drinker House Board will meet at 10:30, and a special joint board will meet in Richards Counselors' Lounge at the same time. However, since the first joint board in September was too unwieldy, a new way of handling the joint board problem is being worked out with the Dean. More later on this. Finally, the Dravo Board will meet later in the week, probably Friday.

The Graphical Gryphon -- The first designs have been submitted for the Gryphon Society's emblem, and will be judged by the Executive Board, which will present the best for approval by the Gryphons.

FUZZY'S FORUM: Notes from the Counseling Fellow, Jim Fozard.

¶ Check the latest freshman absence report, as of Oct. 11; it may include men in your section.

¶ Don't forget: dinner meeting this Tuesday, Nov. 12. Those eating at Laberton should plan to be seated by 5:15. Self-service only, through the line.

¶ A list of tutors will be published by this week's end. Announcements relating to the tutorial program will be made over WLRN during the coming weeknights. More on this later. By the way, if you have any qualified buddies who wish to tutor, have them call Fuzzy at UN 7-8122; or they can pick up an application blank at Mrs. Moravec's office.

¶ The Psychology Club has planned an open meeting this Friday at 7:45 in Packard 400. The speaker, Dr. Nancy Anderson of IBM's Research Center, will discuss use of high speed computers in social sciences research.

¶ This Wednesday at 9:30 in Richards Counselors' Lounge, Fuzzy will give a 20-minute test to all Dravo and Drinker counselors and assistant counselors. Please be there, and on time. A counselors' staff meeting, for Dravo personnel only, will follow this test.

Note to Executive Board Members: Don't forget tonight's meeting (Nov. 11) at 6:15 in Richards Counselors' Lounge.

HOW ABOUT:

§ Some ideas for functions which the Gryphons can hold? It's important that we don't get into a rut as far as types of social functions are concerned. So far a vocal minority has been doing most of the planning, but the silent majority must have some good ideas. So, how about letting us in on them?

§ A Gryphon song group for interested people, to meet perhaps once a week?

§ group trips to concerts or other worthwhile events outside Bethlehem?

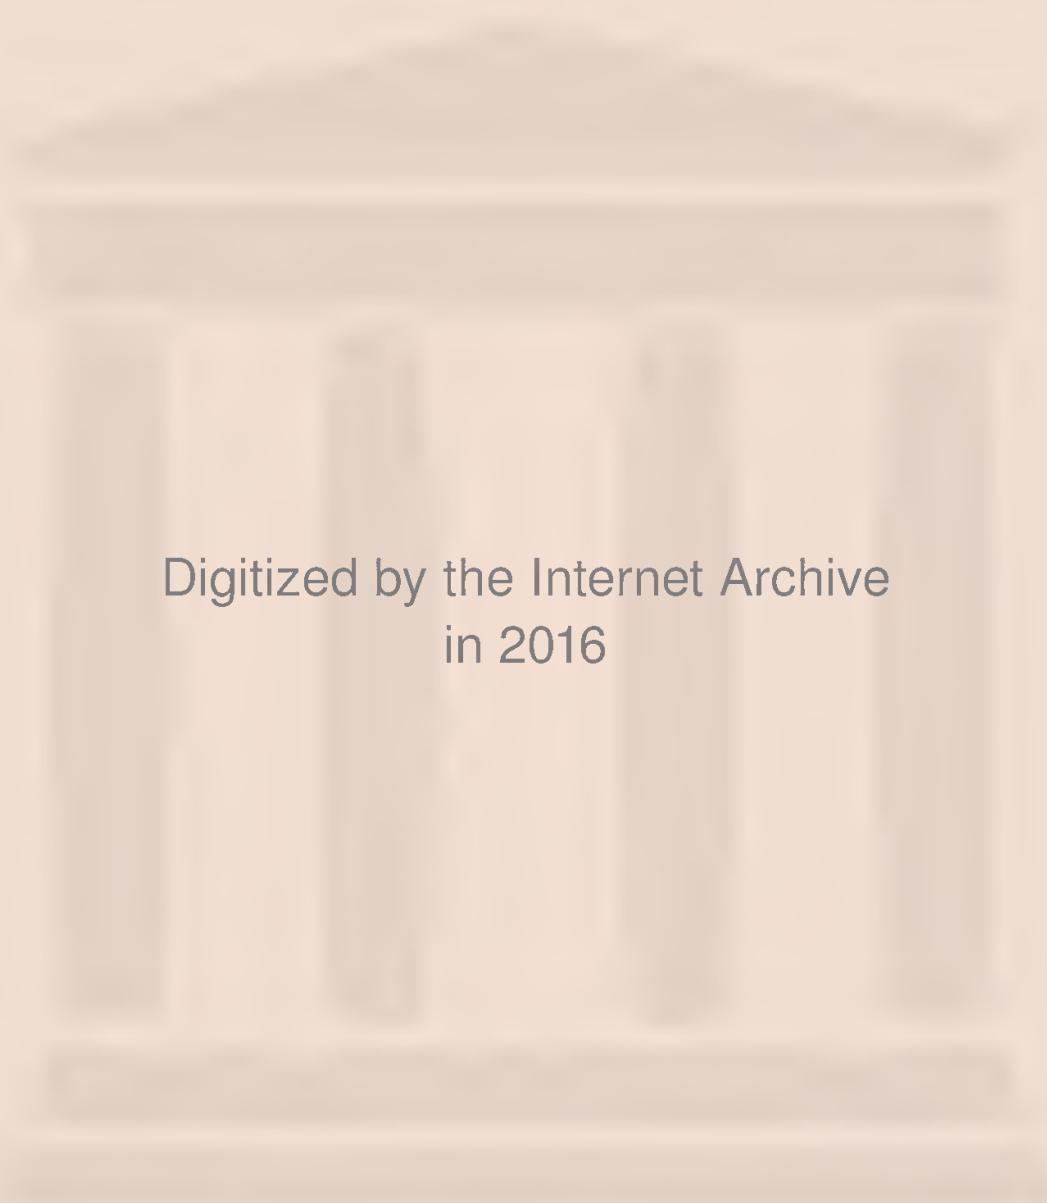

§ a Gryphon display for Lafayette weekend?

§ sponsoring an art show for freshmen, with appropriate recognition being assured?

§ sponsoring something for the orphans or needy before Christmas?

§ requesting that the University provide all counselors with some better form of identification? The unpleasant circumstances of yesterday's Drinker parking lot incident, in which several students refused to surrender their ID cards because counselors could not identify themselves as such, should not be repeated.

DEADLINE for the next Pricked Ear will be Sunday, Nov. 17 at 6:00 PM.P-E (Pricked Ear) office. Our phone number is UN 7-1711. Sorry, no poems.
